OVER

SANTA ROSA, CALIFORNIA, November 12, 1898.

With unusual satisfaction I recommend W. H. Schieffer & Co. as most thoroughly careful and reliable nurserymen, and have good reasons to believe that stock purchased from them will be found well grown, true to name, and perfectly satisfactory in every respect.

LUTHER BURBANK

I take pleasure in recommending W. H. Schieffer & Co. as my successors in the nursery business. As both members of the firm were in my employ for a number of years, I have had ample opportunity to know them, and cannot too strongly express my full confidence in their integrity and reliability. So far as honest intention and careful precautions can prevent mistakes, the public can rely on getting exactly what they buy from W. H. Schieffer & Co.
